

MANLY PEAK WILDERNESS

12,889 Acres

***Designated October 31, 1994 by the California Desert Protection Act,
Public Law 103-433***

This is the final legal description as required in Section 103(b) of the above mentioned Act. It describes the boundary for the Manly Peak Wilderness Area located in Inyo County, California and managed by the Bureau of Land Management. The boundary is more particularly described as follows:

Beginning at a point 50 feet westerly of the intersection of the centerline of the Redlands Canyon Road and the centerline of the Wood Canyon Road near elevation point 1289T (meters), said point being also on the Death Valley National Park boundary, and the point of beginning;

thence southeasterly, coincident with the Death Valley National Park boundary, parallel with and 50 feet southwesterly of the centerline of the Wood Canyon Road, to point 1, a point perpendicular to the centerline at its terminus;

thence easterly, perpendicular to said centerline, to point 2, the intersection of the thread of the Wood Canyon drainage;

thence continuing along the thread of the Wood Canyon drainage, coincident with the Death Valley National Park boundary, to point 3, the ridge line, approximately 0.25 miles southwest of elevation point 2165T (meters);

thence southwesterly, changing to southerly along said ridge line, coincident with the Death Valley National Park boundary, to point 4, Manly Peak, also being elevation point 2193.3 (meters);

thence southerly, coincident with the Death Valley National Park boundary, to point 5, elevation point 2108.0 (meters);

thence southeasterly, coincident with the Death Valley National Park boundary, to point 6, elevation point 1361T (meters);

thence southerly, coincident with the Death Valley National Park boundary, to point 7, elevation point 1421T (meters);

thence southeasterly, coincident with the Death Valley National Park boundary, to point 8, elevation point 1207T (meters);

thence southeasterly coincident with the Death Valley National Park boundary, to a point 9, a point 30 feet northerly of the centerline of Goler Canyon Road;

thence westerly, leaving the Death Valley National Park boundary, parallel with and 30 feet northerly of the centerline of said Goler Canyon Road to point 10, a point south of the toe of a spur, said toe of spur having NAD 1927 coordinates of 35° 51' 40" N. latitude, 117° 06' 56" W. longitude, as determined by GPS observations (+/- 2 to 5 meters accuracy);

thence North, to point 11, said toe of spur;

thence northwesterly, to point 12, to a knob on a spur, said knob having NAD 1927 coordinates 35° 51' 44" N. latitude, 117° 07' 03" W. longitude, as scaled from the USGS 7.5 minute quadrangle "Sourdough Spring, Calif.," 1984 (provisional);

thence northwesterly, to point 13, a peak having NAD 1927 coordinates 35° 52' 10" N. latitude, 117° 07' 33" W. longitude, as scaled from the USGS 7.5 minute quadrangle "Copper Queen Canyon, Calif.," 1984 (provisional), and a spot elevation of 1305 meters as shown on said Quadrangle;

thence northwesterly, to point 14, the intersection of a point 100 feet northeasterly from the northernmost corner of a tram building and a line parallel with and 100 feet northerly of the prolongation of the center line of a jeep trail located in Coyote Canyon;

thence westerly on a line parallel with and 100 feet northerly of the centerline of said jeep trail, to point 15, the intersection of a NAD 1927 W. longitude line of 117° 08' 12", as scaled from the U.S.G.S. 7.5 minute quadrangle "Copper Queen Canyon, Calif.," 1984 (provisional);

thence South, to point 16, a point 30 feet northerly of centerline of said jeep trail;

thence westerly, parallel with and 30 feet northerly of a centerline of said jeep trail, to point 17, the intersection of the thread of a drainage, located near the entrance to Coyote Canyon, said intersection having NAD 1927 coordinates 35° 52' 24" N. latitude, 117° 09' 40" W. longitude, as scaled from the USGS 7.5 minute quadrangle "Copper Queen Canyon, Calif.," 1984 (provisional);

thence northwesterly, to point 18, the west $\frac{1}{16}$ section corner of protracted sections 31 and 6, Ts. 23 and 24 S., R. 45 E., M.D.M.;

thence northwesterly, to point 19, the $\frac{1}{4}$ section corner of section 36 only, on the range line between T. 23 S., Rs. 44 and 45 E., M.D.M.;

thence northwesterly, to point 20, the east $\frac{1}{16}$ section corner of protracted sections 25 and 36, T. 23 S., R. 44 E., M.D.M.;

thence northerly, on the north-south centerline of the southeast $\frac{1}{4}$ and the north/south centerline of the northeast $\frac{1}{4}$ of section 25, to point 21, the east $\frac{1}{16}$ corner of protracted sections 24 and 25;

thence easterly, between protracted sections 24 and 25, to point 22, the section corner of the protracted sections 24 and 25 only, on the protracted range line between T. 23 S., Rs. 44 and 45 E., M.D.M.;

thence northerly, on said range line, to point 23, the South $\frac{1}{16}$ section corner of protracted section 19 only, T. 23 S., R. 45 E., M.D.M.;

thence easterly, to point 24, the southwest $\frac{1}{16}$ corner of protracted section 19;

thence northerly on the north/south centerline of the southwest $\frac{1}{4}$ and the north/south centerline of the northwest $\frac{1}{4}$ of protracted section 19, on the north/south centerline of the southwest $\frac{1}{4}$ and the north/south centerline of the northwest $\frac{1}{4}$ of protracted section 18, on the north/south centerline of the southwest $\frac{1}{4}$ and the north/south centerline of the northwest $\frac{1}{4}$ of protracted section 7, on the north/south centerline of the southwest $\frac{1}{4}$ and the north/south centerline of the northwest $\frac{1}{4}$ of protracted section 6, to point 25, the west $\frac{1}{16}$ corner of protracted sections 6 and 31 of the township line between Ts. 22 and 23 S., R. 45 E., M.D.M.;

thence northerly on the north/south centerline of the southwest $\frac{1}{4}$ and the north/south centerline of a portion of the northwest $\frac{1}{4}$ of protracted section 31, T. 22 S., R. 45 E., to point 26, the northwest $\frac{1}{16}$ corner of protracted section 31;

thence northeasterly, to point 27, the intersection of the Death Valley National Park boundary, at the head of Colter Spring, located in the northeast $\frac{1}{4}$ of protracted section 29, T. 22 S., R. 45 E., M.D.M.;

thence southeasterly, coincident with the Death Valley National Park boundary, to point 28, elevation point 1717T (meters);

thence southerly, coincident with the Death Valley National Park boundary, to the point of beginning.

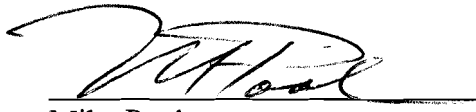

END OF DESCRIPTION

End of Description

The above description containing approximately 12,889 acres utilizes the Copper Queen Canyon, Manly Fall, Manly Peak, and Sourdough Spring 7.5 minute quadrangle maps prepared by the U.S.G.S. The boundary calls listed herein are in part a result of scaling distances from said quadrangle maps and are not a result of survey. All courses have been depicted upon the above mentioned quadrangle maps and are made a part of this official record. Acreage is calculated from the BLM California State Office ArcInfo wilderness coverage.

I hereby certify the legal description and map herewith represent the location of the boundary of the Manly Peak Wilderness area designated by the California Desert Protection Act, Public Law 103-433, dated October 31, 1994.

Signed:

Mike Pool
State Director, California
